BACK-END : • Mongo DB • Express JS • Firebase • JWT Authentication • Node JS

PROGRAMMING LANGUAGES : • Javascript • Swift • Java • Python • C++

INTERNSHIP EXPERIENCE

iOS & Vision Pro App Developer Intern

Ramakrishna Math, Mylapore — Nov 2025 – Present

- Learning iOS app development using Swift, SwiftUI, and Xcode.
- Building real-time iOS applications as part of the internship.
- Also learning visionOS and creating basic app experiences for Apple Vision Pro.

PROJECTS

E-commerce Mobile App (Amazon Inspired)

[App Link](#)

JULY - 2025

Technologies : React Native, JavaScript, Redux Toolkit, Express.js, MongoDB, JWT, Render for Hosting, Nodemailer, RazorPay, AsyncStorage

- Built a full-stack e-commerce mobile app with features like product browsing, cart, checkout, and order management.
- Managed cart state using Redux Toolkit and persisted data with AsyncStorage.
- Developed a REST API backend using Node.js + Express.js with MongoDB for users, products, and orders.
- Integrated Nodemailer for email verification and order confirmations.
- Deployed backend API on Render for cloud hosting.
- Integrated Razorpay payment gateway for secure online payments.

Viveka-AI Chatbot

[App Link](#)

FEBRUARY - 2025

Technologies : React Native, JavaScript, Firebase, Google Gemini, Clipdrop API

- Built an AI-powered chatbot mobile app that answers user queries using Google Gemini API.
- Integrated Clipdrop API for text-to-image generation, allowing users to create images from prompts.
- Designed a clean and responsive UI in React Native for an engaging user experience.

Snapzy (Instagram Inspired)

[App Link](#)

MARCH - 2025

Technologies : React Native, JavaScript, Firebase, Formik, Yup

- Built an Instagram-like social media mobile app with user authentication, photo posting, likes, and comments.
- Integrated Firebase for authentication, real-time database, and media storage with Formik + Yup for form validation.
- Designed an interactive React Native UI with real-time updates for posts and user interactions.
